CAREER OBJECTIVE

A dedicated and detail-oriented Computer Science graduate seeking an entry-level position at Travancore Analytics, where I can apply my programming, machine learning, and problem-solving skills to contribute to innovative projects and grow as a professional..

SKILLS

Programming Languages and Web Technologies: C, Python, Java(basic), HTML, CSS

Core Concepts: Object-Oriented Programming, Data Structures, Algorithms, Agile Methodology

Database Management: MySQL, SQL

Tools and Technologies: VS Code, Microsoft Office Suite, LaTeX

Soft Skills: Team Collaboration, Problem Solving, Communication, Adaptability, Time Management

EDUCATION

Bachelor of Technology in Computer Science and Engineering 2021 – 2025
Carmel College of Engineering & Technology, Alappuzha, Kerala
CGPA: 7.41

INTERNSHIP EXPERIENCE

- Worked on backend development using Python.
- Helped manage and update project databases.
- Assisted in testing and debugging of software modules.
- Improved skills in backend development and database handling.

PROJECTS

Library Management System

• Developed a web-based system to manage books, members, and borrow/return records with features like a searchable catalog and automated updates.

• Improved skills in web development, user interface design, and database management through hands-on implementation.

CNC Machine Tool Wear Scar Detection Using Machine Learning

• Developed a machine learning-based system using BILSTM models to detect wear scars on CNC machine tools and predict their remaining useful life.

• Processed time-series sensor data to enable predictive maintenance, reducing downtime and optimizing tool usage.

CERTIFICATIONS

- Python for Data Science - NPTEL Course
- Introduction to Artificial Intelligence - Infosys Springboard

LANGUAGES

- English, Malayalam
